Professional

Chamberlain Architects Services Limited Nov 2017 – Present,

A company that is working across North America and globally for over four decades. They work on large project development, hotels townhouses, apartment, and car dealership. My position was front-end design production, I have been involved in different types of projects hotels, townhouses, apartments, and condos. Projects where in different parts in the country, city of Mississauga, Ajax, Niagara, Markham, Nashville. Worked on design development and preparing working drawings, and making 3d renderings. The tools that I used was mostly based on autocad, Revit and lumion for 3d modeling and designing and rendering.

- Townhouses, apartments, and condos

Worked on site plan, floor plan layout, Elevation design, and 3d renderings

- Hotels: Hyatt house, Marriot, Embassy suites, Fairfield inn and suites,

The building ranged from 3 to 9 stories, I was involved in site plan drawings, floor plan layouts, and checking with the proto, preparing elevation drawings and making 3d renders. Preparing drawings for site plan approval client to review and permit.

- Tractor dealership

Help in preparing plans, elevations, site plan, and 3d drawings

DKstudio architects inc. August 2015 – November 2017,

established 2006. Owned by Dmytriy Pereklita and Karen Mak, one of the head architecture firm in Canada for high-end retail stores. I have been involved in different projects, different phases of each project, have been always working in teams: Designing team, and construction document drawing team. Designing team: it is a conceptual phase from sketching to 2d drawing to 3d modeling and rendering, and preparing presentations to clients. Construction documents team: I was involved and helped in preparing permit, tender, and construction set. Worked also in preparing brochure for the office and business cards.
